

## Garden Plant Packages 2026

The Jungle Farm has been offering a vegetable box program for many years, which allows families to come to our farm each week and collect a basket of in season berries and vegetables grown on our farm. But some of our customers have garden plots of their own and want to grow your own produce! This program helps you jumpstart your garden with plants from our greenhouse, ready for your garden.

Our Garden Box program has become a popular option for many gardeners! We receive many pictures of wonderful homegrown produce that began here in our greenhouses. It warms our hearts that so many of you choose to dig in the dirt and enjoy fresh produce with your families. We are offering a GardenTransplant program again this year, where you can choose from a variety of vegetables that we start here at the farm. You take home the transplants and plant in your own garden at the right time. They are all varieties that grow well in Central Alberta.

Below are the options available for your home gardening:

### **Deck/ Patio Garden \$90**

Small Space? No problem! Four pots of your choice will be ready to go onto your deck. Options include a Lettuce garden, Tomato (cherry, beefsteak, yellow or roma), Sweet pepper, or a Herb garden. You can choose four in any combination that best fits your family.
